

Gessi S.p.A. has been designing and producing for more than 20 years exclusive bathroom, kitchen, private and public wellness furnishing; Gessi brand today means design all over the world in exclusive settings, hotels, spas, yachts or private dwellings.

Gessi aims at being a global reference in the sector for the quality and design of its products and services.

Sanitary faucets and bathroom fittings are produced in a well-defined local context Gessi is an integral part of and in which product and service quality research are carried out complying with environmental protection and occupational safety, whose importance increased significantly.

Gessi is fully aware of the importance of legislative and compliance issues concerning quality, safety and environment, and estimated the compliance with applicable law as a priority. Moreover, the company adopted an organizational model compliant with the Law Decree 231/01 and consequently established its ethical code consistently with this integrated policy.

The integrated policy includes the general objectives and the intervention guidelines that were outlined and approved by the top Management. These objectives are established assessing the context in which the company works, always taking into account the needs of all the parties concerned.

The Management is formally committed with respect to the following areas that are a reference framework to set the company objectives:

Commitment to continuous improvement of the integrated quality, environment and safety system including the relative performances;

Commitment to environmental protection, including pollution prevention in every respect;

Commitment to improvement of environmental performances;

Commitment to compliance with all conformity obligations and requirements concerning products quality, the environment and occupational health and safety;

Commitment to prevent accidents, injuries and occupational diseases through the continuous improvement of the integrated management system;

Commitment to continuous improvement of customer satisfaction with a focus on products and services.

Commitment to spread, endorse and implement the integrated policy at all business levels and make it available both inside and outside the company.

Commitment to the implementation of an approach by processes based on the identification and assessment of risks and opportunities, for any decision that may affect product quality and increase customer satisfaction.
